

## TECHNICAL DATA SHEET

### THYSIS DSV DISC VENT

The Thysis Circular Disc Soffit Vents have been designed to provide ventilation through new or existing soffit boards whilst preventing entry of insects or vermin, with the use of a 4mm grid. They are fitted by simple push-fit clip system into a pre-cut 70mm diameter hole and provide 2,500mm<sup>2</sup> of free air. They should be fitted every 250mm along the eaves to provide continuous ventilation of 10,000mm<sup>2</sup>. Soffit boards need to be a minimum thickness of 4mm to provide a satisfactory fit.

#### Details:

- (UV Stabilised) Co-Polymer Polypropylene
- Weight 13g
- Diameter 70mm
- Ventilation 2,500mm<sup>2</sup>

#### Colours available:

- White
- Brown, Black, Tan (to order and subject to minimum quantity)
